

KOLLER / H 65

The best solution for harvesting timber - the KOLLER harvester head based on a reliable design. Through the robust and tough design the head is superior for the use on a harvester or any other machine with a high productivity.

TECHNICAL DATA	KOLLER H65	ADVANTAGES
Felling diameter	650 mm	<ul style="list-style-type: none"> · Ideal as harvester head · Modular build · Ergonomical delimbing knives · Continuous variable pressure of delimbing knives and feed rollers · Big, variable feed roller diameter · Tremendous delimb feed strenght and traction · Compact & robust construction · Changeable knives · Modern electronics · Easy maintenance
Delimbing diameter	80-550 mm	
Delimbing knives	4 piece	
Feed rollers	3 piece	
Delimb feeding strength	max. 34 [KN]	
Feeding rate	max. 6 m/s	
Weight excl. rotator	1600 kg	
Optimal input power	from 150 PS / 20 t	
Optimal hydraulic power	190-350 l/min 240-340 bar	
Optimal hydraulic power	75- 140 kW	
OPTIONAL		
Top saw felling diameter	450 mm	

THE BEST SOLUTION FOR EFFICIENT AND HIGH QUALITY TIMBER HARVESTING.

The quality of our products is the result of experience and continuous development since 1961. By using the highest quality reliable components and the know-how of our employees, we can guarantee you an extremely high productivity and a very good value stability.
